[Print Email](#)

**Robert David Steele is a former Marine, CIA case officer and the co-founder of the US Marine Corps Intelligence Activity. His mission has been to spread the use of Open Source Intelligence (OSINT), and he's written a number of handbooks on OSINT for NATO, the DIA and US Special Operations Forces.**

*by [Arjun Walia](#)*

He has been working in these fields for decades, and definitely knows a thing or two about what's going on at the deepest levels of government and the military industrial complex. These are the people we have to start listening to for truth. **He won't get an interview on CNN, that's for sure.**

Lately, he's been one of several credible people from 'within' creating awareness and speaking out about issues that mainstream media continues to ignore, who sometimes goes as far to label as a 'conspiracy theory,' no matter how much evidence sits behind the claims.

One of these issues is [child trafficking](#) and [abuse](#), a topic that's gained a lot of attention since the 2016 American election as **high ranking members of the global elite have been implicated in such activity, and have been implicated in such activity for a very long time.**

Only now are we seeing it creep up into the mainstream narrative, despite the fact that they continually try and shut it down. Why? Because the owners and shareholders of these networks have been implicated in the activity discussed in this article.

## Beyond Simple Abuse

In the video below, Robert gives a very brief outline of the issue, and how **child trafficking goes far beyond the abuse of children**. It goes into **organ harvesting, children being bred for ritual abuse, born without a birth certificate, tortured, enslaved, mind-controlled** and [much more](#).

Again, this information is hitting the mainstream like it never has before, one example would be the fact that an [NBC news report implicated Hillary Clinton in covering up a massive pedophile ring](#) in the heart of [the State Department](#), another would be multiple ex-high ranking political officials [claiming that both the Clintons engage in sex with minors](#), pointing towards their close relationship with [Jeffrey Epstein](#) (who also has [Royal Family connections](#)).

**Epstein is now a registered sex offender**. When it comes to [the Vatican](#), there are always disturbing acts going on. Right now, the Pope's right-hand man, [George Pell, is in court for sexual assault](#), and a massive pedophile ring has been exposed where hundreds of boys were tortured and sexually abused, [Pope Benedict's brother](#) was **at the forefront of that controversy**.

As far as the military industrial complex goes, Congresswoman [Cynthia McKinney](#) grilled Donald Rumsfeld on DynCorp about a private military contractor with ties to the trafficking of women and children.

Years later, a top U.S. General who was the liaison between DynCorp and the U.S. Military was [implicated in the sexual assault of teenaged girls](#) [and **he got away with it, based on a technicality!**]. The list goes on and on, and it's a long one. Oh yeah, let's not forget about [PizzaGate](#)...

Individuals from within governments like former U.S. State Department official, [Steve Pieczeni](#), have also been very outspoken on the subject of elite pedophile rings, and who is involved.

As Steele mentions below, 'powerful' organizations, like intelligence agencies for example, are not all 'bad.' He claims that they are filled

with 90 percent good people, with good hearts and good intentions, and that the 10 percent that controls these areas are wrapped up in in-humane activity, like child trafficking.

Give the video below a listen to learn more, and you can check out more testimony from the International Tribunal on Natural Justice from others like Robert, police officers, [MK Ultra survivors](#) and many more who have knowledge of such activity.

## Why Are We Learning About This?

This information can seem 'dark' and 'grim,' but how are we helping the situation if we completely ignore it and pretend it isn't happening?

It's one thing to present this information with great judgment and anger, pushing us into a state of being and emotion that keeps us locked into lower frequencies, but it's another thing all together to present it as neutral facts that we can become aware of so we can begin to make way for more survivors, whistleblowers and witnesses come forward to share their testimony.

When this happens, action starts to take place, like what we are seeing at the ITNJ. So, if you want to know what to do with this information, share it, and help be the voice for those who still don't have one.

Process any emotions that come from learning this information. This is how we will move through the states of consciousness that project a world that keeps this type of stuff occurring. Evolving beyond the need for it, is often about switching our perspective about it and processing the emotions.
